

SRT BAG

A storage bag to keep your SRT system on your harness.

CLIMBING ACCESSORY

DESCRIPTION

FTC TREE has adapted the chalk bag to arborists' needs:

- flatter shape, for less bulk on your harness,
- oval opening with stiff rim (easier to find your gear),
- drawstring closure for lining (with toggle),
- lining when closed has same volume as outer bag,
- two loops to fasten it on your harness.

This bag will keep a SRT system on a harness, or any other gear, with no risk to lose it. The wide opening makes it easier to manipulate the gear.
