

# ALUMINIUM RETRIEVAL BALL

This  $\varnothing 17$  mm (0.66 in) aluminium retrieval ball is a very useful accessory to retrieve anchors from a distance.

## ANCHORING ACCESSORY

## DESCRIPTION

The dyneema line helps tie it to the end of a rope, so that it will lock itself in the anchor's retrieval part and help bring both anchor and rope back to the ground.

It is particularly adapted to the retrieval of the CHOKER LIGHT cambium saver using a 7 mm (0.27 in) quick link.

Can also be used with a Petzl FIXE pulley (PO5) or a COCOON 5 pulley from Art.

## TECHNICAL INFORMATION
