CHOKER JOKER LIGHT

Just like the Joker Light, our Choker Joker is versatile. It's a tried-and-trusted choking anchor that can be used many ways in combination with the Joker Light. This cambium saver is also certified for two users, making it perfect for rescue manoeuvres (which we sincerely hope never happens to you!).

ANCHOR

DESCRIPTION

The CHOKER JOKER LIGHT is a cambium saver that perfectly complements the JOKER LIGHT range. It has many uses, whether at the trunk or in the tree crown.

Shortened, this cambium saver is very practical to prune in the tree top, a longer or lengthened version will give more freedom of movement to walk in the tree (around the axis).
