

# TRANSPORT BOX

The boxes our friction devices are sold in can be bought separately.

## GEAR TRANSPORT

## DESCRIPTION

These very robust boxes will allow for practical protection and transport of your gear. The two volumes have initially been chosen for our cylinders with their straps (MINI-CYLINDRE HR 2.1 and MICRO-CYLINDRE 2.1), but can hold so many other products.

No worry about the lid opening unexpectedly: two hinges and two snap locks perfectly secure the content. Clever detail, the handle folds automatically, which reduces the risk of damaging it.

One last very useful advantage: the boxes are stackable - for easy handling and stocking.

## TECHNICAL INFORMATION

Capacity	15 L	20 L
Outer dimensions	40 x 30 x 18,5 cm	40 x 30 x 23,5 cm
Inner dimensions	37 x 27 x 14,7 cm	37 x 27 x 19,7 cm
Weight	1,61 kg (3.55 lb)	1,81 kg (4 lb)
