

CYLINDRIC

A bag that is ideal for the storage and transport of heavy ropes, like rigging ropes.

TRANSPORT BAG

DESCRIPTION

It is a simple and functional bag, hard-wearing. A large opening for a practical access to the storage volume, and the roll-up closure provides for a waterproof bag. The bottom is reinforced to better support heavy ropes.

How do you carry it? The bag is equipped with 2 thick, comfortable shoulder straps (for longer distances and heavy bags) and a webbing handle as well.

The CYLINDRIC comes in two sizes, 40 L and 60 L. The modern design plays with colours: mainly blue for the 40 L version, mainly grey for the 60 L version and black for the reinforced bottom.

For information, we store up to 60 m (197 ft) of KATUALI Ø 14 mm in the 40 L bag, and up to 90 m (295 ft) in the 60 L version.

TECHNICAL INFORMATION

Capacity	40 L	60 L
Material	1680 D PVC-coated polyester fabric (Reach) Reinforced polyamide quick-release buckles
