

EQUILIBRE

Adjustable sling – to lower branches flat or in their initial position.

SLING

DESCRIPTION

The EQUILIBRE sling is great to lower branches without changing their position. It is easy to adjust with the prusik, a great solution for branches close to obstacles, when they cannot be lowered the usual way.

TECHNICAL INFORMATION

Standard	Machinery Directive 2006/42/CE
Material	100% polyester, polyurethane-coating 50% cover / 50% core
Diameter	14 mm - 2 splices
Construction	20-strand double braid
Elongation	6.5 % at 50 % of MBS
Weight	1.8 kg (4 lb)
MBS	38.2 kN (with splice)

WLL 5 kN

Length 7 m (23 ft)
