# ENGRAVE IT\*

**YOU WISH TO ORDER OUR CUSTOMISED PULLEYS?  
HERE ARE OUR RECOMMENDATIONS FOR A QUALITY  
ENGRAVING.**

## TECHNICAL REQUIREMENTS

- The customisation is on the back of the pulley (the front cheek plate has the regulatory markings).
- The zone that can be marked is:
  - Mini-Éclipse: 40 mm x 40 mm square
  - Éclipse: 60 mm x 60 mm square
- Texts or visual work will have to fit the defined zone and be readable with this size.

**Mind that the larger the visual work is, the smaller it will be - to fit in the zone.**

## FOR TEXT ENGRAVING

- Simple font (Arial, Impact, Calibri, Verdana, Helvetica etc.) limited to 250 characters maximum. Special characters accepted.

## FOR VISUAL WORK ENGRAVING

- PDF file, preferably vectorised.
- For non-vectorised files, only PNG with min. 600 ppp resolution (any low quality file will be rejected).
- BLACK visual work on WHITE background (no shades or gradients).
- No pictures.
- No too fine details (< 0.1 mm that could be difficult to engrave clearly).
- No engraving out of the zone that has been defined.
- Subject to approval by FTC.

Examples of visual work accepted:

PRODUCT	REFERENCE	EAN CODE
ÉCLIPSE PULLEY - CUSTOM ENGRAVING	FTC/PE3-GR	3701356703566
